

Newsletter May 2023

May topics

Spring is here, and our preschoolers are excited to learn about mommies and babies, spring flowers, and birds. During circle time, we will also discuss the wonders of nature and how baby animals are born and cared for by their mothers. We will also learn about the different types of flowers that bloom in the spring and the role of birds in pollination. In addition, we will have a show and tell activities where children can bring in their favorite spring-related items to share with the class. We cannot wait to explore and discover the joys of spring with our little ones.

Mother's Day Celebration

Our Mother's Day concert is scheduled for Friday, **May 12 from 2:30 to 3:00 pm** and it will be held in the Church Hall (the building behind the church, next to the parking lot, entrance on Gray Ave). Please send your child wearing a festive outfit (no rain boots!). Morning children and the children not attending on Fridays must be dropped off at 2:20 in the church hall, by the stage. All the children will be dismissed right after the concert.

Summer program

The registration for our summer program is closed. No new requests are accepted. For those families who submitted their request, you will receive a registration confirmation by the end of May.

Reminders

- Please discourage your child from climbing on the big rocks by the school entrance and do not allow him to step into our small garden. It is important to teach young children to respect the environment, the other people's work and property.

Important Dates

1. Mother's Day concert on Friday, May 12 at 2:30 pm.
2. School closed for Victoria Day on Monday May 22.

Sincerely,

Ms. Feng, Ms. Joy, Ms. Eunju, and Ms. Lisa
